Introducing

ANTUMBRA

A new direction in User
Interface Design.

Superbly engineered, beautifully designed.

How to use your Antumbra finish selector

1. Choose fascia colour.
2. Choose rim colour.
3. Option to custom label – text [english, chinese, arabic] or icons.

AntumbraButton and AntumbraDisplay fascia finishes

AntumbraButton and AntumbraDisplay rim options

AntumbraTouch glass fascia finishes

AntumbraTouch rim options

Antumbra Online
Configurator Tool

Innovative field effects technology allows the panel to automatically detect a person's presence.

Customise panels easily with text or a range of icons.

Built-in sensors measure light level, temperature and proximity.

Users can dim lighting, monitor temperature, control the AC and blinds from one stylish panel.

Two stage installation, the hidden Communication Module can be installed and commissioned before the Application module, with no further programming.

Large button design is ideal for disability and aged care assisted living technology applications. Meets with Australian Standard: AS 1428.1-2009 14.2

Left: AntumbraButton panel with magnesium fascia
Right: AntumbraTouch panel with black fascia

A stunning 'wall wash' lighting effect is triggered when a person is detected approaching to welcome interaction.

Choose Your Preferences

- 1. Background Wall
- 2. Style
- 3. Orientation
- 4. Product Type
- 5. Fascia Colour
- 6. Rim Colour
- 7. Customized Label

NOTE: Typically the Brown Pair of the DyNet Cable is not used, and left unterminated. In the case of the Antumbra Panels, the Brown Pair must be tied to ground with the Shield Wire as illustrated below:

Product Update

Revolution Series DR2P

Re-engineered button assembly & switch cap

Note:

Button cap height

Stainless steel cover bezel

Major updates:

Three-column - obsolete

OLED option - obsolete

IR option - obsolete

OLED option

Three-column

DUS804C

DUS360CR

Product Update

Multifunction Sensor DUS360CR

Dynalite **U**niversal **S**ensor
360° Ceiling **R**ecessed

Note:

IR only supports Philips RC5 codes

Insulating cover -

not compatible with surface mounting cup

Product Update

Time Clocks

DTC601

DDTCE001

DTCE601

Network Ethernet Gateway EnvisionGateway

Multipurpose ethernet gateway

Supports EnvisionTouch

Web interface

Time clock & schedule editor

Phase Out

Multipurpose Controller DDMC802

Modular design

8x Control channels

8x Output slots

Replacement model to be based on

ETA: Q1 2017

Phase Out

Multipurpose Controller DDMC802GL

Modular design

8x Control channels

4x Output slots

Replacement model to be based on

DDMC802GL

ETA: Q1 2017

Product Update

Relay Controller DDRC1220FR-GL-V2

Additional features include:

Standard channel override & indicators

2x RJ12 sockets

8x Dry contact inputs (non-isolated)

Top accessible network sign-on

Common supply terminal order

Product Update

Relay Controller DDRC810DT-GL-V2

Additional features include:

Standard channel override & indicators

2x RJ12 sockets

8x Dry contact inputs (non-isolated)

Top accessible network sign-on

Common supply terminal order

Product Update

Room Controller DDRC-GRMS

Compact dedicated controller for
room control

Features:

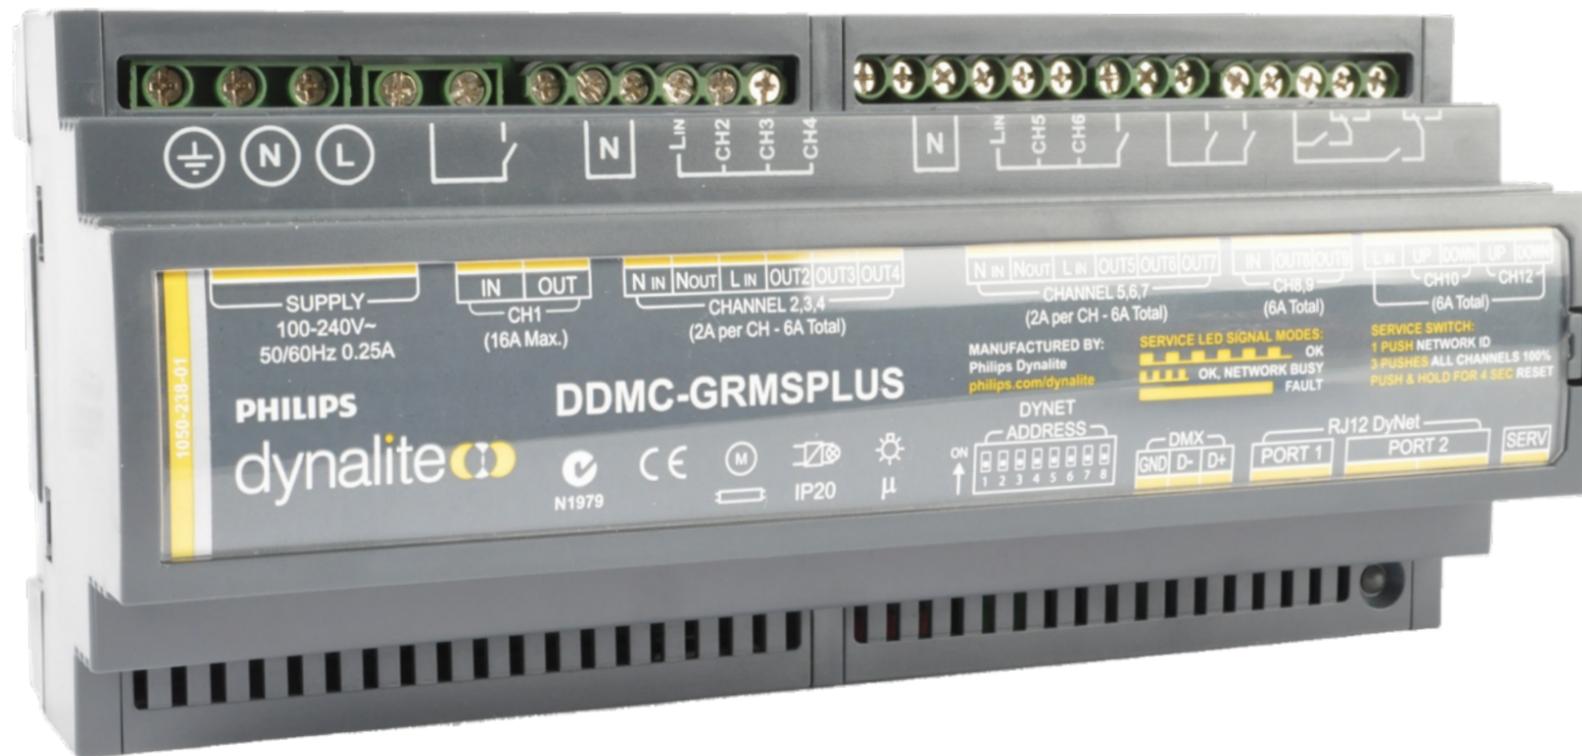

- 2x 16A Heavy duty power outputs
- 9x 6A Lighting control relays
- 1x 6A Directional blind motor control
- 18x Dry contact inputs (isolated)
- 2x RJ12 sockets
- Top Accessible network sign-on
- Common supply terminal order

Product Highlight

Room Controller DDRC-GRMSPLUS

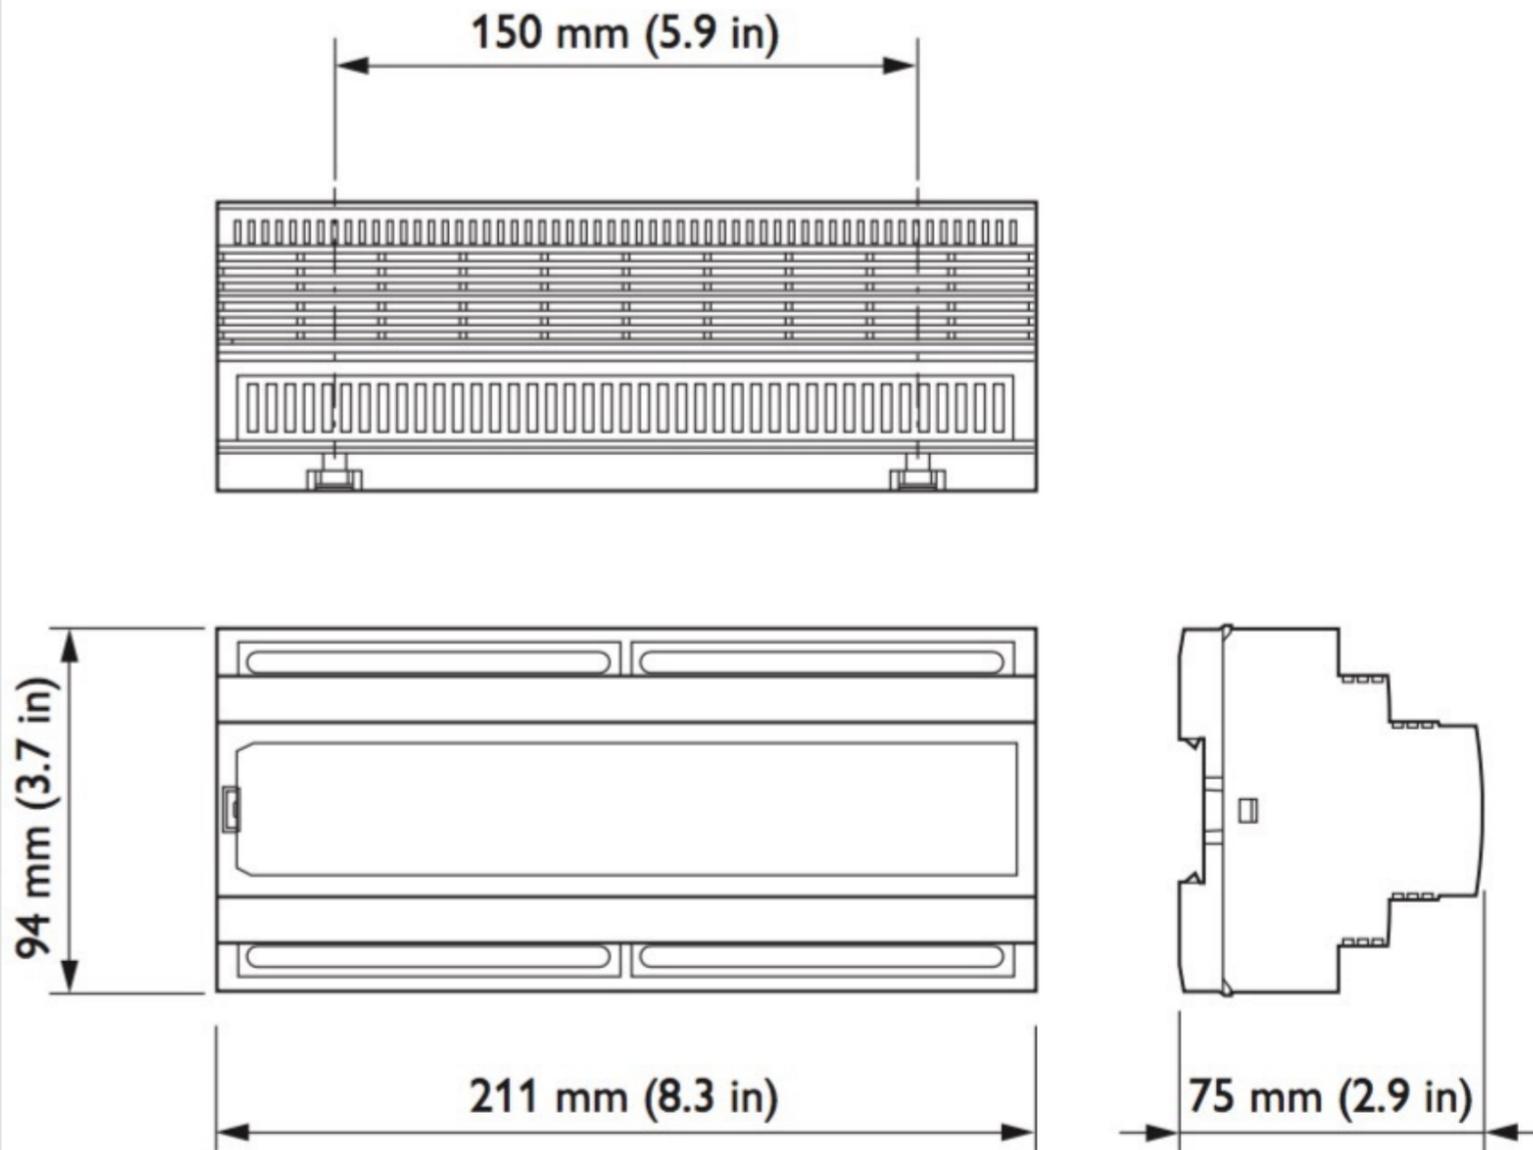

Compact dedicated controller for
room control solutions

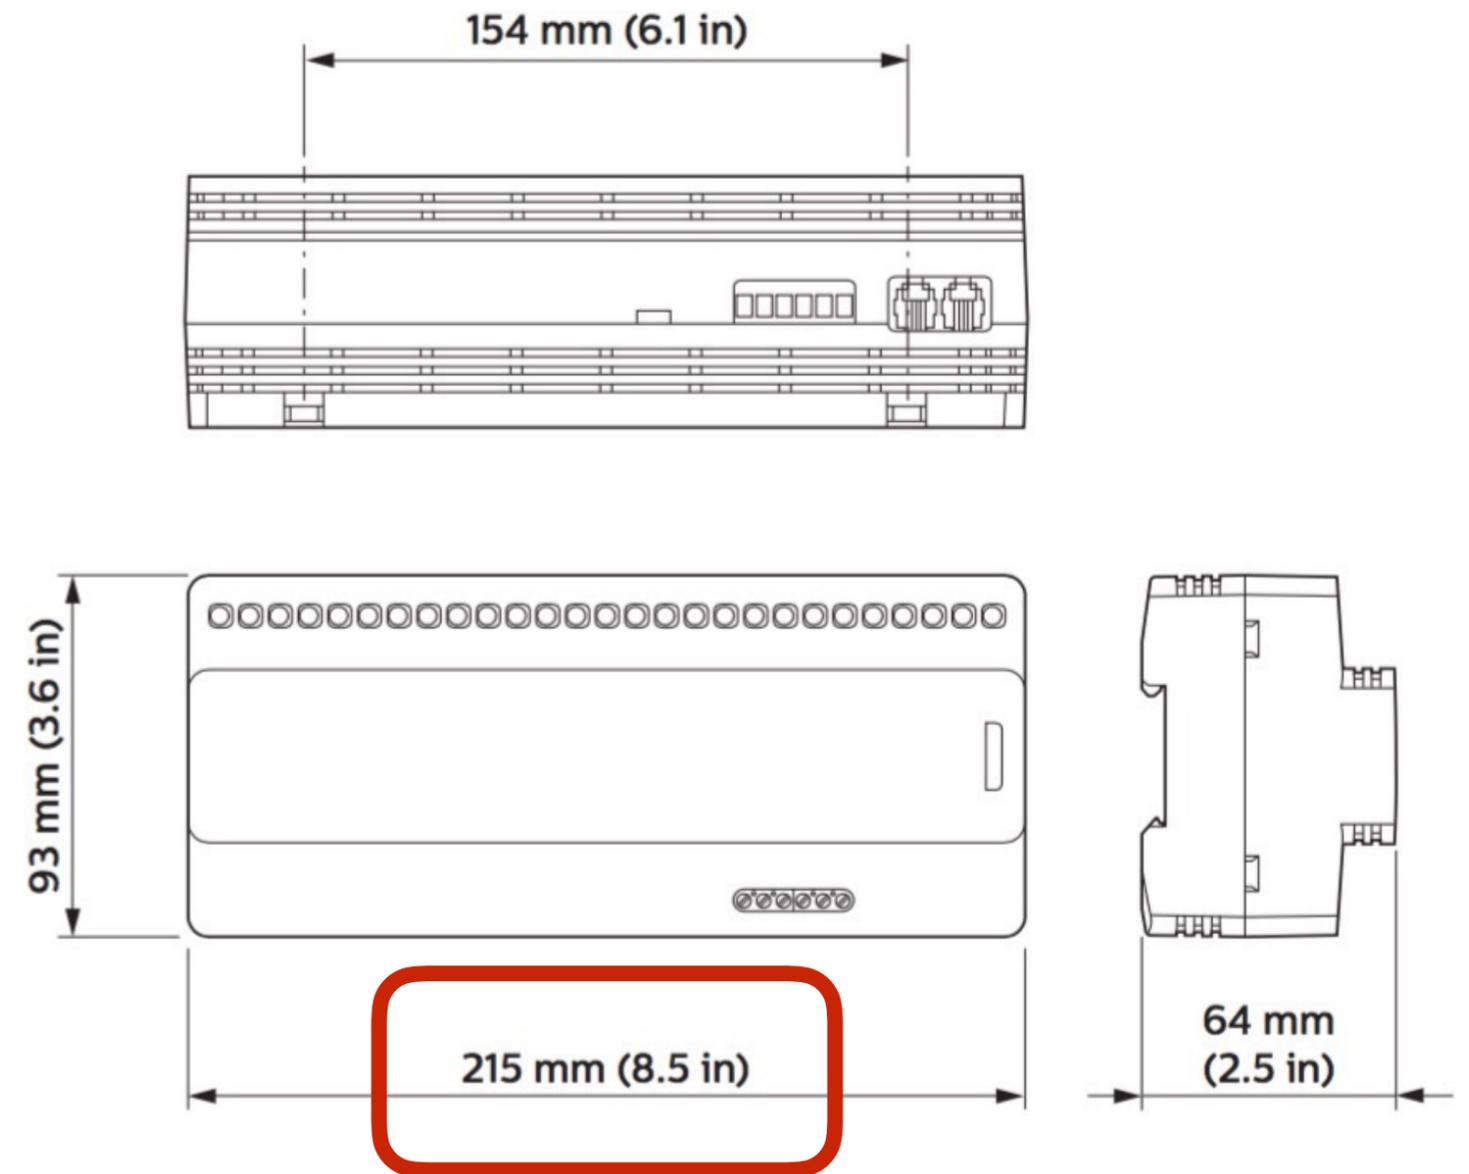

Features:

- 1x 16A Heavy duty power relay
- 3x 6A Power relays
- 5x 6A TE dimming
- 2x 6A Directional blind motor control
- 16x Ch DMX control
